

Jacob Ziolkowski

Information, Communication & Technology · Senior

Web Administration Assistant | Florida State University — ITS Web Team | Supervisor: Debby Kelly

Website Accessibility Monitoring · Site Ownership Management · Drupal CMS Data Integration

My Projects

1. Site Ownership Management

Analyze SiteImprove data across 639+ university sites to monitor accessibility performance and identify responsible departments for remediation outreach.

2. Website Listing Project

Assisting in designing a centralized FSU web inventory by merging DNS records, Drupal site listings, and departmental directories.

3. Drupal CMS Data Integration

Contribute to documentation and data integration supporting AI tool adoption within FSU's Drupal CMS.

My Experience

Through this internship I've gained hands-on experience with enterprise accessibility platforms, Drupal CMS administration, and large-scale institutional data integration.

I've built skills in accessibility analysis, data organization, and developing outreach workflows for university web administrators using SiteImprove, Salesforce, and Drupal.

Tools & Technologies

- WCAG 2.1 AA / ADA Title II Standards
- SiteImprove Accessibility Platform
- Drupal Content Management System
- Salesforce (Access & Ticket Management)
- Microsoft Excel / Data Integration
- DNS Domain Records & Departmental Data

My Work

I export SiteImprove accessibility data for monitoring website performance across university sites, draft outreach communications to site owners, and process SiteImprove access requests through Salesforce.

for Accessibility

Assisted in merging DNS records, Drupal site listings, and departmental directories into a master dataset, creating a centralized inventory of FSU web properties.

My Impact

FSU must meet ADA Title II digital accessibility requirements (WCAG 2.1 AA) by April 26, 2026. My work directly supports this deadline by monitoring accessibility performance, identifying site owners, and building outreach workflows across FSU's web ecosystem.

Key Contributions:

- Monitored accessibility performance across 639+ university websites
- Designed outreach workflows for university site owners
- Processed SiteImprove access requests for multiple departments through Salesforce

"Supporting FSU's April 2026 ADA Title II compliance deadline — improving accessibility across hundreds of university websites."
